

Dominic RECA UK

Congressman Nadler

4TH December 2021

Dear Congressman Nadler,

RE: H.R. 5338 – 117th Congress: Radiation Exposure Compensation Act Amendments of 2021 (RECA)

I am writing to you as an organisation who represents UK Veterans and their families who participated at Operation Dominic in 1962, we help the families to claim compensation using the RECA program.

We fully support this bill. The difference that this bill has made to our veterans is enormous. It has helped us in so many ways and it is very important that it continues to provide for future generations.

It is an extremely well-administered program, which a clear and concise application process that has helped thousands of people.

There are however some very important people who are not included within the bill, these are:

- Enewetak Atoll clean-up personnel
- 1966 Palomares clean-up personnel
- Amchitka Island (in the Aleutian Island chain in southwest Alaska) testing personnel and downwinders

We would request that these people be included in the bill, and it amended accordingly.

Yours sincerely
