Congressman Nadler

4<sup>TH</sup> December 2021

Dear Congressman Nadler,

RE: H.R. 5338 – 117<sup>th</sup> Congress: Radiation Exposure Compensation Act Amendments of 2021

I am writing to you as a recipient of this program, and I fully support this bill. The difference that this bill has made to my family is enormous. It has helped us in so many ways and it is very important that it continues to provide for future generations.

It is an extremely well-administered program, which a clear and concise application process that has helped thousands of people, like me. My father died aged 52 in 1994 and the compensation received has helped both myself and my sister.

There are however some very important people who are not included within the bill, these are:

- Enewetak Atoll clean-up personnel
- 1966 Palomares clean-up personnel
- Amchitka Island (in the Aleutian Island chain in southwest Alaska) testing personnel and downwinders

We would request that these people be included in the bill, and it amended accordingly

Yours sincerely

Alan Owen FBCS CITP
