

Congress of the United States
House of Representatives
Washington, DC 20515-0550

We, the undersigned Members of Congress and congressional staff, were informed by Customs and Border Protection leadership that they were under orders to begin processing at that time aliens who otherwise would have been ineligible for entry under Title 42.

This is expressly troubling, as Title 42 was not set to be officially withdrawn until May 23, 2022, and numerous Customs and Border Protection Agents told us they were under order to begin immediate processing in expectation of the additional large influx of migrants expected to cross our southern border when Title 42 is withdrawn on May 23, 2022.
