

**Sarah Lamdan** is a Professor of Law with a Master's Degree in Library Science and Legal Information Management. Lamdan graduated from the University of Kansas School of Law, where she earned an environmental law certificate and was awarded the Hershberger, Patterson, Jones & Roth Energy Law Award. She teaches administrative law, environmental law, data privacy, information access, and government transparency courses.

Professor Lamdan's 2017 reference book *Environmental Information: Research, Access & Environmental Decisionmaking* (Environmental Law Institute) is a resource for journalists, scientists, and researchers who rely on government science. Her forthcoming book from Stanford University Press studies data analytics companies and calls for creating digital infrastructure that balances data innovations with our traditional information ideals. Her work has been published in law reviews and information science journals, including the *NYU Review of Law and Social Change*, *Library Journal*, *Government Information Quarterly*, and forthcoming work in the *Georgetown Law Technology Review*.

When she's not teaching, Professor Lamdan is active in national information access and data privacy research and organizations. She is a Senior Fellow with the Scholarly Publishing and Academic Resources Coalition and a fellow at the Engelberg Center on Innovation Law & Policy at NYU School of Law. She's also a member of the Environmental Data & Governance Initiative (EDGI) and a co-chair of the Invest in Open Infrastructure (IOI) Community Oversight Council.

Professor Lamdan provides seminars on freedom of information laws and gives speeches and talks to scholars and practitioners about data analytics and privacy issues in academia and beyond. She was the 2022 NASIG Vision Speaker, and has served as the keynote speaker at other information science events in university libraries and beyond.
