

**Amendment to the Committee on the Judiciary Authorization and Oversight Plan for the
119th Congress**

Offered by Mr. Nadler

On page 8, strike “the politicization of criminal investigations and prosecutorial decisions by the Biden-Harris Administration” and replace it with “the Trump Administration’s decision to overrule a grand jury, the U.S. Attorney for the Southern District of New York, and senior officials at the Public Integrity Section of the Department of Justice in order to strike a corrupt bargain with an elected official charged with taking bribes and other illegal benefits from foreign nationals.”
