

Questions for the Record from Representative Troy Nehls for Mr. Tolman, Mr. Schaerr, Mr.
Czerniawski, and Ms. Goitein
“Oversight of the Foreign Intelligence Surveillance Act”
December 11, 2025

1. What privacy protections exist in instances where surveillance technology, such as facial recognition cameras, are used in public spaces?
2. How are law enforcement and national security agencies making use of newly developed surveillance technologies? Which of these technologies are they using?
3. Do law-abiding American citizens have an option to protect their personal data, such as phone records or location data, private from third party data broker transactions?
