@GeneHamilton

Why is anyone considering this completely misguided bill? Especially when Judge Boasberg still galavants around, sabotoging all things related to President Trump's agenda?

The bill—"Protecting Third Party Litigation Funding From Abuse Act"—is classic DC garbage. Want an easy sign?

Remember how President Trump was targeted by lawfare financed by Reid Hoffman? This bill would have done nothing to help reveal that. That disclosure only came about through ordinary pre-trial discovery. This bill wouldn't have changed a thing. So if it won't help President Trump defeat serious lawfare, what's it going to do to help anyone else?

What will this bill ensure? Any entity willing to finance litigation on behalf of conservatives will be harassed and doxxed by the radical left.

Does the plaintiffs' bar have a bad reputation? Deservedly so, yes. But is it key to helping everyday Americans in the future? Yes. Conservatives? Yes.

This bill only serves the interests of the Chamber of Commerce—not the American people.

Committees shouldn't be focused on @USChamber priorities. What are they even doing?
