December 05, 2025

*The news that Netflix had secured exclusive rights to negotiate for WBD raises significant concerns for the DGA. We believe that a vibrant, competitive industry — one that fosters creativity and encourages genuine competition for talent — is essential to safeguarding the careers and creative rights of Directors and their teams. We will be meeting with Netflix to outline our concerns and better understand their vision for the future of the company. While we undertake this due diligence we will not be commenting further.*
