

### **Dr. Eithan Haim Biography**

Dr. Eithan Haim is a general surgeon and trauma surgeon at Hunt Regional Medical Center in Greenville, Texas. He attended University of South Florida for his undergraduate degree, followed by Florida Atlantic University Schmidt College of Medicine where he was part of the prestigious Alpha Omega Alpha and Gold Humanism honor societies. He completed his residency in general surgery at Baylor College of Medicine in Houston, Texas in June 2023. Dr. Haim lives with his wife and baby daughter in a small suburb of Dallas, Texas.

During his residency, Dr. Haim served as the anonymous whistleblower in a story released by investigative reporter Christopher Rufo which exposed that Texas Children's Hospital, the largest children's hospital in the world, was concealing its pediatric transgender medicine program from the public. The day after the story's release, the Texas Legislature voted to ban transgender medical interventions on minors, in part due to the story. The Texas Attorney General's office subsequently opened an investigation into Texas Children's, with which Dr. Haim assisted in an official whistleblower capacity. Due to his whistleblowing, Dr. Haim was indicted by the Biden DOJ on four felony counts for allegedly violating HIPAA in what was largely seen as a weaponized prosecution. All charges were dismissed with prejudice in January 2025.
