

## **Korri Heiling, Sister of Brady Heiling, Statement for the Record**

**April 16, 2026**

My name is Korri Heiling. I am 16 years old and I am the sister to Brady Heiling. We are one of the Angel Families. Brady and his girlfriend, Hallie Helgeson, were killed in a car crash by an illegal immigrant in a sanctuary county in Wisconsin on July 20, 2025. The illegal immigrant offender decided to repeatedly commit crimes and one night decided to drive with no license, under the influence (two times over), and drove the wrong way on the highway which ended up murdering my innocent brother and his girlfriend. She had no respect for our laws so she just kept breaking them and by her living in a sanctuary city she was allowed to stay in the United States and keep breaking laws. She was able to continue breaking the laws and was protected and never got any consequence for any of her actions. If she wouldn't have been protected in a sanctuary county then Brady and Hallie would still be with us spreading their positivity. She should have been deported before our family paid the consequence.

The day of July 20, 2025 is when my heart was shattered in so many pieces. We got robbed of hearing their voices, getting their hugs, and hearing their stories. Brady and Hallie were my role models, my support system, and my best friends. There's never a day that goes by where I don't think about how much I miss them and how much they taught me. We had so much fun from Starbucks to the Quadoba dates to being outside with the animals there was never a dull moment when I was with them. There was no doubt that when I was with them there was always going to be smiles and laughter. Every chance they got they came to my events and they never cared if it was tennis, track, or 4H. They were always there supporting me and cheering me on. Just seeing them there made my heart full. Watching them guide everyone in their life and providing them with happiness and support was such an amazing experience and such an honor to have had them in my life.

From the innocent lives that have already been taken, why do these illegal immigrants keep getting protected? Why do they never have to own up to their actions? Why can they keep committing crimes and murdering innocent people? Why aren't they deported as soon as they are caught breaking the law or being illegal? They have no respect for the laws. They also don't come into the United States the right way. Why should they have the right to live here and be protected?

These tragedies can be prevented. We need to stop encouraging this behavior. It is destroying innocent lives and families every day we continue to keep allowing it to.

Make them follow the rules. Prioritize the safety of Americans!

**STOP SHIELDING ILLEGAL IMMIGRANTS!**
