Please let me introduce myself. I am a retired District Director having served a Member of Congress from Northern California from 1987-2013. Prior to my tenure, I served with the same member in the California State Assembly, 1985-1986.

My background is as follows: I was born and raised in San Jose, California, and received my Marketing Degree from San Jose City College.

My business experience primarily derives from the private sector having served in insurance claims, Realtor and later executive director for my local board of Realtors building relationships with our state legislators. I have always brought abundant energy, creativity, dedication, life experience and personal knowledge to my work.

As an extension of my community service work resulting from work as a congressional staffer, I am currently a member of the Beale Military Liaison Council working to serve our active military families and veterans from Beale Air Force Base in northern California. I am also a volunteer with the North Valley Disaster Animal Group and member of the Homeward Bound Golden Retriever Rescue. Golden Retrievers are well-known comfort dogs promoting harmony, relaxation and calm in sometimes stressful environments.
