Disclosure of Government Contract and Grants
of the American Maritime Partnership (AMP)
and Kirby Corporation and Subsidiaries
Per Request in Letter of Invitation to
Testify

The American Maritime Partnership has not received any Federal grant (or subgrant thereof) and has not entered into any Federal contract (or subcontract thereof) during the current fiscal year or either of the two previous fiscal years.

Kirby Corporation and its subsidiaries have attempted to identify any work or revenues derived from government contracts or subcontracts, or government grants or sub-grants for the current and past two fiscal years as requested in the letter of invitation to testify dated May 1 and directed to Mr. Allegritti.

Kirby's marine transportation subsidiaries have not identified any such items. Kirby's diesel engine sales and service related subsidiaries perform work for or supply parts to government customers and perform work or supply parts as subcontractors on government projects. To the extent Kirby has been able to identify such transactions from a review of its records, such transactions are identified on the following sheets.

Kirby has not been able to identify any grant or sub-grant payable directly to Kirby or a subsidiary of Kirby. However, Kirby is aware of certain goods and services provided to non-federal customers which were paid for, in whole or in part, by government grants. For example, engine upgrades or emissions reduction work was performed for customers who were recipients of grants designed to reduce emissions and improve air quality. While such work may not require disclosure under a strict reading of the disclosure request, in the spirit of full disclosure, Kirby is including in the following listing such work, as well as other work, which although not performed directly for a federal agency, Kirby believes may have been funded in whole or in part with federal funds.

Kirby would be happy to provide additional detail with respect to these transactions should that be required.
