

Dr. Raj Rajkumar is George Westinghouse Professor in the department of Electrical and Computer Engineering at Carnegie Mellon University in Pittsburgh, USA, with a courtesy appointment in the Robotics Institute. He serves as the Director of the University Transportation Center (UTC) on Technologies for Safe and Efficient Transportation (T-SET) funded by the US Department of Transportation at Carnegie Mellon. He is also a co-director for the General Motors-Carnegie Mellon Embedded IT Collaborative Research Lab, and co-director for the General Motors-Carnegie Mellon Autonomous Driving Collaborative Research Lab. He also directs the Real-Time and Multimedia Systems Lab at Carnegie Mellon. He has chaired multiple IEEE, ACM and SPIE conferences and symposia on cyber-physical systems, real-time systems, sensor networks and multimedia systems. His work on priority inheritance protocols is known and used widely. Seven of his papers have received Best Paper Awards. He is a Fellow of the IEEE. His research interests include all aspects of cyber-physical systems.
