

Frederick Jones, AICP Bio-

Fred Jones is currently senior project manager with Michael Baker International. Mr. Jones is a transportation planner with over 15 years' experience in urban planning and project and program management for a variety of community planning and mobility projects. His expertise includes multimodal transportation planning, corridor studies, complete streets, transit-oriented development, as well as extensive experience in land use development and regulatory issues. In addition, Mr. Jones brings experience in scenario planning, storytelling, and the development of performance measures to enhance the transportation and land use decision-making process. Mr. Jones' training in anthropology led to his career in planning as he believes "urban planning is anthropology."

Mr. Jones sits on the National Complete Streets Coalition Steering Committee as part of Smart Growth America. He was previously Chairman of the City of Jacksonville's Downtown Development Review Board and currently represents the citizens of Neptune Beach, FL as Vice-Mayor on the City Council, where he intends to promote more livable and sustainable mobility solutions.

Previously he served as senior transportation planner with the Jacksonville Transportation Authority (JTA). In this role, he oversaw JTA's Complete Streets program which seeks to increase the "first and last" mile accessibility and safety of JTA's newly-designed transit system. Mr. Jones is a Certified Planner with a Master's Degree in Urban and Regional Planning from the Florida State University.
