

Mr. Urmson is a co-founder of Aurora and serves as the company's Chief Executive Officer and Chairman of the board. Prior to founding Aurora, Mr. Urmson helped build Google's self-driving program from 2009 to 2016 and served as Chief Technology Officer of the group. Mr. Urmson has 20 years of experience leading automated vehicle programs. He was the Director of Technology for Carnegie Mellon's DARPA Grand and Urban Challenge Teams, which placed second and third in 2005, and first in 2007. Mr. Urmson earned his Ph.D. in Robotics from Carnegie Mellon University and his BEng in Computer Engineering from the University of Manitoba. Mr. Urmson currently serves on Carnegie Mellon's School of Computer Science Dean's Advisory Board. Mr. Urmson also currently serves on the board of directors for Edge Case Research, a company working to assure the safety of autonomous systems for real world deployment. Additionally, he has served on the Autoliv and Veoneer Technical Advisory Boards, and the Shell New Energies External Advisory Board. Mr. Urmson has authored over 50 publications and is an inventor on over 150 issued patents worldwide.
