

Jeffrey Sloan is a Senior Director for Regulatory Affairs at the American Chemistry Council (ACC), a national association representing the leading companies engaged in the business of chemistry. He focuses on transportation policy, overseeing a broad range of advocacy initiatives on freight rail and hazardous materials transportation safety. He is the staff lead for ACC's Distribution Committee and a member of the U.S. Department of Transportation's Rail Safety Advisory Committee.

Jeffrey has been with ACC since 1996, with various roles including Policy Director for ACC's Chlorine Chemistry Division. Before coming to ACC, he worked as a staff member in the U.S. House Of Representatives. He earned a Master's degree in Environmental Policy from Indiana University and a Bachelors degree in Political Science from James Madison University.
