The Honorable Nydia Velázquez  
Committee on Small Business  
U.S. House of Representatives  
2069 Rayburn House Office Building  
Washington, D.C. 20515

Dear Chairman Williams and Ranking Member Velázquez,

The White House believes small businesses are a tax loophole.

On March 9, the Administration released their proposed budget for fiscal year 2024. For one of the largest tax increase proposals, President Biden claims he is “closing a loophole” by subjecting small business income to a new 5% tax, “The Budget closes a loophole that allows certain business owners to avoid paying Medicare taxes...”

As a business owner, we know better than anyone the tax contributions we already pay to Medicare and Treasury generally. Our business and employees make significant contributions to Medicare taxes every single year. We are joining fellow small businesses across the country in petition to help set the record straight – small businesses pay more taxes than the Administration gives us credit for.

Sincerely,

11,255 Small Business Owners
