

Adam Artz Outline

Effects on Family; Daughters in School in North Branch
Can't upload easily
Slow speeds that drops info
Cuts off from net

Just makes process hard and frustrating and a source of stress

Impacts business; Owner of Real Estate Brokerage, offices in Blaine & North Branch

In business over 20 years

First question used to be Schools now it's "What type of Internet is available?"

Can't upload Pics to the MLS from my home office that's within city limits

The Majority of all Paperwork is sent, signed and stored electronically and that's next to impossible with current internet at my home.

Almost always have to go into office to do anything more than a very basic service.

If 2 identical homes available which would you choose. Makes communities with better internet more desirable/valuable.

Summery.

Good internet is no longer a luxury

Top notch internet is a foundation of future growth
