PROFILE

Greg Bingham has more than 35 years of experience in the field of business consulting, primarily for government and construction contractors.

Greg's clients have included corporations, partnerships and individuals; in- house and outside counsel. Greg has consulted with contractors to the US government, including contractors to the departments of Defense, Energy, State, Housing & Urban Development and the National Aeronautics and Space Administration, the US Army Corps of Engineers, the Department of Veterans Affairs, the Agency for International Development, the General Services Administration, the National Institutes of Health, and others. Greg's assistance to clients has included presenting his findings in settlement negotiations, alternate dispute resolution proceedings, depositions and trials. One judge commented as follows with respect to Greg's testimony:

- Mr. Bingham "credibly testified... based on his 28 years in advising clients on government contract issues..."
- "[T]he Court finds Bingham's testimony ... to be credible, well-founded, and reliable..."

GENERAL GOVERNMENT CONTRACTING

Greg has assisted clients on numerous issues including: (1) consulting on compliance issues arising from the Cost Principles found in FAR 31 and the Cost Accounting Standards as well as contract pricing and evaluation guidance found in FAR Parts 12 and 15; (2) contract and subcontract formation issues relating to cost or pricing data, auditing and the definitization of prices, as well as cost realism and other issues sometimes involving bid protests; (3) review or preparation of hundreds of claims for changed work, delay and disruption; (4) review or preparation of more than 1,000 termination settlement proposals on contracts terminated for convenience, as well as assistance on contracts terminated for default (e.g., A-12); (5) forensic investigation of issues involving accounting, estimating and billing including allegations of defective pricing, false claims, mischarges, improper labor charging and improper billings; (6) testimony on practices in the industry, termination cost recovery, lost profits, the cost of delay and disruption and other damages categories, as well as penalties and various industry practices; and (7) Federal Supply Schedule issues relating to the triggering of the Price Reductions and Defective Pricing clauses and related quantum issues.

GOVERNMENT CONTRACT TRANSITIONS

Greg has assisted many companies with transitions. Some examples have included: (1) transitions from no government business to contracting with the federal government; (2) transitions from sale of only “commercial items” (or “commercial services”) to sales requiring more complex contractual vehicles; (3) transitions from solely fixed-price work where adequate price competition is achieved to some cost-reimbursement contracting; (4) transition from modified CAS coverage to full CAS coverage, including preparing CAS disclosure statements; (5) complying with the Earned Value Management System requirement which often is required of contractors performing large cost-reimbursement contracts; and (6) various other compliance issues often relating to the internal controls and operations.

FORENSIC ACCOUNTING INVESTIGATIONS OF OVERBILLING, DEFECTIVE PRICING AND FALSE CLAIMS

Greg has assisted counsel on liability, damages and penalty issues on numerous matters involving allegations of over-billing, defective pricing and false claims, many of which have involved the FAR mandatory disclosure requirements, including questions relating to ‘credible evidence.’ Some of these matters were filed under the Federal False Claims Act. He has presented the findings of his analysis to government attorneys and auditors including personnel from the Department of Justice, the Office of Inspector General of the DOD, GSA and other agencies, as well as the Defense Contract Audit Agency, the Defense Criminal Investigative Service, the Federal Bureau of Investigation, the Department of Veterans Affairs and the Defense Logistics Agency, among others.
