

Robin Greenleaf, PE, LEED AP, FACEC

Robin Greenleaf, PE, LEED AP, FACEC, is the founder and chief executive officer of Architectural Engineers, Inc., a women-owned 33-person engineering firm focused on the design of sustainable mechanical, electrical, plumbing and fire protection building systems. AEI was founded in 1985 as a full-service engineering firm and has been a certified women-owned business enterprise and disadvantaged business enterprise since 1986.

Robin is a fellow of The American Council of Engineering Companies (ACEC) and has spent her career focused on improving the business of engineering through service to ACEC National and the Massachusetts chapter. She has held numerous National and local leadership roles, and in 2019 was elected to the position of Chair-elect of ACEC National. She will serve as Chair during 2021-2022.

Robin served as president of AEI until 2019 when she transitioned to the role of CEO. She has a bachelor's degree in civil engineering from the University of Massachusetts, a master's degree in structural engineering from Drexel University and is a registered professional engineer in Massachusetts, Rhode Island, and Connecticut.
