

ELECTRI **INTERNATIONAL**

Research and Education for the Electrical Construction Industry

Mr. Josh Bone – ELECTRI International

As Executive Director of ELECTRI International, the Foundation for Electrical Construction, Josh Bone guides the Foundation's research and education agenda to ensure it remains a vital resource for the entire electrical construction industry. He began as Interim Executive Director in April 2020, before being installed as its permanent Executive Director on October 1, 2020.

Bone joined NECA in October 2019 as Executive Director of Industry Innovation. In this position, he was responsible for implementing, training and presenting construction technology solutions to electrical contractors nationwide.

Bone started his career working with design teams, then transitioned into helping construction professionals leverage technology in both the preconstruction and construction phases. He has had the opportunity to work on hundreds of projects throughout his career, where he has delved deep into the VDC process. He has also shared his knowledge with audiences and publications across North America as a frequent professional speaker, guest editorial contributor and podcaster.
