PROFILE

I am a New Jersey native who graduated from the Schreyer Honors College at Pennsylvania State University with a finance degree. I began my career with Shell Oil in Houston but returned to the east coast to work for MapInfo, a GIS mapping software company, outside of D.C. and then for Oracle in New York City.

While living in NYC I started working at an interactive web agency, creating websites for companies like Godiva, Waterford/Wedgwood and Coach throughout the late nineties and early 2000s. While working full time, I went to NYU at night and received a Masters in Information Systems.

My family and I moved back to NJ in 2003 and I launched FindTape.com, an online retailer of tape, glues and dispensers, as a side business. By 2006, FindTape.com had grown large enough that it became my full-time job and I was able to stop commuting into NYC from Princeton everyday. FindTape.com is now one of the top e-retail businesses in North America and we also opened our first brick & mortar store in 2019.
