William (Bill) Mahoney is the Director of the Research Applications Laboratory (RAL) at the National Center for Atmospheric Research (NCAR), in Boulder, Colorado. He has led weather related research and development programs at NCAR for more than 35 years on a variety of topics including aviation, surface transportation, social sciences, intelligent forecast systems, wildland fire behavior prediction, and renewable energy. His experience includes scientific research, program development, strategic planning, communications, facilitating inter-laboratory science, technology commercialization, team leadership, system design, administration, project management and budgeting, program advocacy (federal, state, international), education and outreach, promoting diversity and inclusion, promoting transdisciplinary science, and extensive community service.

Mr. Mahoney received his M.S. degree in Atmospheric Science from the University of Wyoming in 1983 and received his B.S. degree in Aeronautics from Miami University of Ohio in 1981. He has written or co-authored more than 50 papers and frequently presents NCAR's work at national and international conferences and seminars. Bill is a member of the American Meteorological Society (AMS), American Geophysical Union (AGU), Intelligent Transportation Society of America (ITSA), American Wind Energy Association (AWEA), and the Energy Systems Integration Group (ESIG).

Bill served as the Chair of the AMS Board on Enterprise Economic Development, was a member of the AMS Economic Development Committee, is the Past Commissioner of the AMS Commission on the Weather, Water and Climate Enterprise, and is an AMS Fellow.
