

BERNARD D. GOLDSTEIN, M.D.

Dr. Goldstein is Professor Emeritus of Environmental and Occupational Health and Dean Emeritus of the University of Pittsburgh Graduate School of Public Health. He is a physician, board certified in Internal Medicine, Hematology and in Toxicology. Dr Goldstein is author of over 150 publications in the peer-reviewed literature, as well as numerous reviews related to environmental health. He is an elected member of the National Academies of Science Institute of Medicine and of the American Society for Clinical Investigation. His experience includes appointment as Assistant Administrator for Research and Development of the U.S. Environmental Protection Agency, 1983-1985. Before coming to the University of Pittsburgh in 2001 he had been the founding director of the Environmental and Occupational Health Sciences Institute, a joint program of Rutgers University and Robert Wood Johnson Medical School. He has chaired more than a dozen National Research Council (NRC) and IOM committees primarily related to environmental health issues.. He has been president of the Society for Risk Analysis, Chair of the National Board of Public Health Examiners, and has served as a member or chairperson of numerous national and international scientific committees, including chairperson of the NIH Toxicology Study Section, EPA's Clean Air Scientific Advisory Committee and the Research Committee of the Health Effects Institute. His recent work is primarily on health issues related to unconventional gas drilling, and on sustainability.
