

Barry Lee Myers is the Chief Executive Officer of AccuWeather, Inc., a position he has held since late 2007. AccuWeather is an American iconic brand in weather known around the world.

He previously served as the company's Executive Vice President and General Counsel.

Recognized as an expert in public/private relationships in the weather and weather media industry worldwide, (although not himself a meteorologist), Mr. Myers has served as special advisor to three separate directors of the National Weather Service and is a Fellow of the American Meteorological Society (AMS).

He has been an invited speaker at the World Meteorological Organization (the United Nations body that coordinates international weather information) and at the World Federation of Scientists, on the topics of weather data exchange and public-private sector relationships in the weather field.

Mr. Myers was involved in advocating for language applying to real-time government data in The Paperwork Reduction Act, and worked with the author of OMB Circular A-130 to further support this concept. This portion of the statute serves as confirmation of the American concept of the free and open availability of weather and other government information (agricultural data, health data, census data) and related government analysis.

He currently serves on the Environmental Information Services Working Group (EISWG) for the NOAA Science Advisory Board. Mr. Myers also served on the steering committee of the AMS Commission on the Weather and Climate Enterprise. He serves on the Boards of the Weather Coalition and of the American Weather and Climate Industry Association.

During Mr. Myers' tenure as CEO, AccuWeather has become the leading force in weather on mobile devices on a global basis. AccuWeather is now believed to be the largest mobile weather provider worldwide, being accessible on an estimated 1.5 billion devices and in January became the only private company authorized in China to do business as a weather provider in the digital media space there.

Mr. Myers holds a B.S. in economics and business administration from the Smeal College of Business at Penn State, and M.S. (ABD) in management science and organizational behavior also from the Smeal College of Business and a Juris Doctor from the Boston University School of Law. He is currently still admitted to practice before the courts of the Commonwealth of Pennsylvania and the United States Supreme Court.

For almost two decades Mr. Myers served as a tenured Associate Professor on the graduate faculty of the Smeal College of Business and as a faculty member of the Graduate Program in Regional Planning and developed the first of its kind senior level course on Environmental law.

He has testified before Congressional committees numerous times, has delivered hundreds of speeches, and had scores of published articles in refereed and popular journals.
