

**David A. Shive**, *Chief Information Officer for the U.S. General Services Administration*

David A. Shive is the Chief Information Officer for the U.S. General Services Administration. Mr. Shive oversees the GSA IT organization, and is responsible information technology operations and ensuring alignment with agency and administration strategic objectives and priorities. He joined the U.S. General Services Administration's Office of the Chief Information Officer in November 2012. Prior to being named CIO, he was the Associate CIO of the Office of Enterprise Infrastructure, responsible for the enterprise information technology infrastructure platforms and capability that support the GSA business enterprise. He was also the ACIO for Corporate Systems for the GSA business support offices. Prior to joining GSA, he served in the District of Columbia government as a Chief Information Officer. In this role, Mr. Shive had executive responsibility for agency IT operations including financial systems, security and privacy programs, internal controls and compliance, strategic planning, enterprise architecture and performance management and measurement programs and directed the transformation of enterprise systems and processes, to public/private cloud hybrid. He holds an undergraduate degree in physics from California State University, Fresno; a master's degree in research meteorology from the University of Maryland College Park; and a post-graduate management certificate from the Carnegie Mellon Graduate School of Industrial Management.
