Hannah Davis
Co-founder, Patient-Led Research Collaborative

Hannah Davis is a co-founder of the Patient-Led Research Collaborative (PLRC), a team of Long Covid patients with research, policy, data, design, and medical backgrounds. PLRC did the first research on Long Covid in April 2020; their second paper on characterizing Long Covid is in the most viewed medical papers and was highlighted in the announcement of the $1.15 billion in Long Covid funding for the NIH. Hannah has a background in data analysis and machine learning, with a focus on tools for countering bias in machine learning datasets and on generative art & music. She has published papers on Long Covid, sanitation systems, patient-led research models, and translating novels into music.
