

Dr. Jaime Yassif has 20 years of experience working at the interface of science, technology, public health, and international security within government and civil society. Yassif currently serves as NTI Vice President for Global Biological Policy and Programs, where she oversees the organization's work to reduce catastrophic biological risks, strengthen biosecurity and pandemic preparedness, and drive progress in advancing global health security. Yassif previously served as a Program Officer at Open Philanthropy, where she led the Biosecurity and Pandemic Preparedness initiative, recommending and managing approximately \$40 million in biosecurity grants, which rebuilt the field and supported work in several key areas. Prior to this, she served as a Science and Technology Policy Advisor at the U.S. Department of Defense and worked on the Global Health Security Agenda at the U.S. Department of Health and Human Services. Dr. Yassif holds a Biophysics Ph.D. from UC Berkeley, an MA in Science and Security from the King's College London War Studies Department, and a BA in Biology from Swarthmore College.
