

**Confidential Professional Executive Summary**  
**Joseph C Loomis**

**Joseph C Loomis**  
Dallas, TX  
Arlington, VA

**National Security Expertise**

- Active Top-Secret Clearance with DOD, specializing in cryptology, cybersecurity, and critical national infrastructure protection.
- Service-Connected Disabled Veteran of the U.S. Navy, with extensive experience in cryptological operations, advanced electronics systems, and secure communications.
- Served in direct support of U.S. Cyber Command and the National Security Agency (NSA), developing innovative automation strategies to counter cyber threats and protect classified missions.
- Expertise in designing and implementing Cyber Protection Teams (CPTs), enhancing the Department of Defense's operational readiness to neutralize advanced cyberwarfare threats.
- Contributed to critical projects for the Pentagon, Department of Energy (DOE), and other federal agencies, safeguarding sensitive defense assets, technologies, and networks.
- Proven track record in advising and collaborating with federal agencies and policymakers to shape forward-looking cyber defense strategies.
- National News Coverage on Cybersecurity and Defense. [YouTube Link](#)

**Cybersecurity and Innovation Leadership**

- Founder of CyberSponse, a facility-cleared cutting-edge platform for incident response and security orchestration, advancing next-generation cyberwarfare, acquired in 2019.
- Holder of multiple patents in AI-driven automation and cybersecurity, including US20200259847A1, US20160149948A1, and US9773405B2, showcasing thought leadership in next-generation technologies.
- Pioneered automation tactics for real-time cyber warfare, integrating advanced threat intelligence to support CPTs and operational frameworks across all military branches.
- Partnered with federal and private-sector stakeholders to mitigate high-profile cyberattacks, emphasizing the importance of public-private collaboration in national defense.
- Developing now TurboVets.com, an AI-driven enterprise global platform to transform the VA claims process, benefits management, large tax savings, and demonstrating expertise in leveraging technology for systemic improvement.

**Policy Advocacy and Strategic Influence**

- Advised the Senate and other federal stakeholders on cybersecurity modernization, addressing vulnerabilities in legacy systems and preparing for quantum and AI-driven cyber threats.
- Influenced national cybersecurity policy through innovative solutions to enhance public-private partnerships and improve federal response strategies.
- Contributed to the development and modernization of the Department of Defense's cyber defense systems, ensuring operational resilience against emerging global threats.

**Military and Technology Acumen**

- Decades of hands-on experience in defense technology, supporting classified missions in hostile and complex operational environments, including deployments in the Persian Gulf.
- Specialized in integrating military and civilian technologies, creating scalable solutions for secure communication, threat detection, and incident response.

**Global Collaboration and Public-Private Partnerships**

- Strengthened international cybersecurity alliances through collaboration with allied nations, ensuring cohesive strategies against shared threats.
- Consulted with Fortune 500 companies, including Apple, LG, and Sony, to protect intellectual property and enhance corporate security.
- Established the Incident Response Consortium, a nonprofit organization dedicated to advancing cybersecurity training and fostering a collaborative community among operators.

## **Confidential Professional Executive Summary**

### **Joseph C Loomis**

#### **Veteran Advocacy and Leadership**

- Champion for veteran welfare, addressing systemic inefficiencies through innovative technology platforms like TurboVets.
- Active in supporting mental health initiatives and streamlining services for service members and their families.

#### **Personal Attributes**
