

**WESTERN ILLINOIS  
HOME HEALTH CARE**

Skilled Care | Supportive Care | Primary Care

Amanda Newman is the Chief Executive Officer of Western Illinois Home Health Care, Inc., a respected, family-owned and locally operated provider of home-based health services in West Central Illinois. Since joining the organization in 2012, Amanda has brought visionary leadership and a steadfast commitment to delivering high-quality, compassionate, patient-centered care to rural communities. She is responsible for overseeing the agency's operations, regulatory compliance, service quality, and long-term strategic direction.

Under Newman's leadership, Western Illinois Home Health Care has expanded its reach and enhanced its offerings to meet the evolving needs of patients across 10 counties. The organization provides a full continuum of care — including Nurse Practitioner home visits, Skilled Nursing, Physical Therapy, Occupational Therapy, Speech Therapy, Medical Social Work, Home Health Aide support, Homemaker services, and Homemaker Respite care. Notably, the agency proudly serves 121 veterans in rural areas with limited access to traditional healthcare services, filling a critical gap in the regional healthcare landscape.

Newman brings years of leadership experience from the insurance industry, where she held several management positions focused on operations, customer service, and organizational efficiency. This diverse background informs her dynamic approach to healthcare administration, combining data-driven decision-making with a deep compassion for the people and communities she serves.

She earned her Bachelor's degree from the University of Notre Dame, graduating Magna Cum Laude, and continues to apply the values of integrity, service, and excellence that shaped her academic and professional journey.

Newman is passionate about advancing home-based care models and ensuring equitable healthcare access for underserved populations. Her work continues to make a meaningful impact on the lives of patients, families, and caregivers throughout West Central Illinois.
