

## EHRM PMO Leadership

### Fred Mingo, Office of Program Control (PC), Program Control Director

Mr. Fred Mingo was recruited to the Department of Veteran Affairs (VA) in 2015, Veteran Health Administration (VHA) to help lead VA's modernization to the next generation electronic health record, eventually serving as the VHA Program Executive for VistA Evolution, a joint VHA and Office of Information and Technology (OI&T) modernization effort combines. Fred is continuing his leadership role in the agency's newly established Electronic Health Record Modernization (EHRM), leading the Program Control Office responsible for oversight and execution.

Prior to coming to VA, Fred served as a Naval Aviator for 27 years, retiring as a Captain, and has over 30 years' experience in government and commercial leadership positions. Fred brings executive industry and government experience leading and supporting Enterprise level technology initiatives like the Navy and Marine Corps Intranet (NMCI) and Defense Integrated Military Human Resources System (DIMHRS).

In the Navy, Fred served as Commanding Officer of the Space and Naval Warfare Systems Command (SPAWAR), Systems Center New Orleans, Louisiana where he was recognized for exemplary leadership during and after Hurricanes Katrina and Rita. Prior Navy positions included the Chief Information Officer, Chief Technology Officer and Aviation Safety Officer. Most recently served as the Chief Operating Officer for a niche consulting service providing strategic planning, market research and business development support in the Federal Health Information Technology market. Many of their clients were pursuing and are now supporting the DoD's Healthcare Management Systems Modernization (DHMSM) contract installing Cerner as the new EHR for the DoD.
