

Terry Adirim, M.D., M.P.H., FAAP

**Deputy Assistant Secretary of Defense for
Health Services Policy and Oversight**

Dr. Terry Adirim, M.D., M.P.H., FAAP, is the Deputy Assistant Secretary of Defense for Health Services Policy and Oversight in the Office of the Assistant Secretary of Defense for Health Affairs. In this role, she serves as the principal staff assistant and advisor to the Assistant Secretary of Defense for Health Affairs for clinical policies and programs, including oversight of quality assessment/quality improvement, patient safety, and population-based health care management across the Military Health System (MHS). MHS serves approximately 9.6 million beneficiaries worldwide.

Dr. Adirim received a Bachelor of Arts degree in Biology from Brandeis University in Waltham, Mass., and earned a Doctor of Medicine degree from the Leonard M. Miller School of Medicine at the University of Miami. She completed pediatrics training at the Children's Hospital of Philadelphia, pediatric emergency medicine training at the Children's National Medical Center (CNMC), Washington, DC, as well as sports medicine discipline at Uniform Services University of the Health Sciences and CNMC.

She graduated from Harvard School of Public Health with a Master's degree in Public Health and was subsequently selected as a Science and Technology Policy Fellow from the American Association for the Advancement of Science in 2006-2007.

Dr. Adirim served as Senior Advisor for Science and Public Health in the Office of Health Affairs for the Department of Homeland Security (2006-2010), and afterwards was the Director of the Office of Special Health Affairs at the Health Resources and Services Administration at the Department of Health and Human Services (2010-2014).

Just prior to serving in her current position, Dr. Adirim returned to Philadelphia as an attending physician at St. Christopher's Hospital for Children; Professor of Pediatrics and Emergency Medicine at Drexel University College of Medicine, as well as Director of Academic Advancement in the Department of Emergency Medicine.
