

Kyle Michl, DGIB Senior Delivery Lead and Chief Innovation Officer, Accenture Federal Services.

As the Senior Delivery Lead for Accenture Federal's DGIB contract at the Veteran Affairs Agency, Mr. Michl is responsible for the implementation and operations of the DGIB system. As Chief Innovation Officer, he helps drive growth opportunities and identifies high-impact strategies that focus on emerging technology incubation, rapid prototyping, and co-creation of innovative solutions. He is responsible for Accenture Federal's extended reality, blockchain and multi-party systems, 5G & Edge, and quantum offerings. He also explores new technology ventures with the federal and commercial partner

ecosystem.

Prior to this role, Mr. Michl was responsible for the technology delivery capabilities for Accenture Federal's Defense portfolio which includes the Department of Defense, Veterans Affairs, and Intelligence Community. There, he focused on bringing together innovative solutions from the commercial industry together with defense expertise to advance client missions, enhance operations, and empower the workforce. He led large transformation programs with both the US Air Force and the Defense Logistics Agency (DLA) which included standing up innovation work streams and prototyping new technologies.

Mr. Michl has worked across technology strategy, systems integration, and technology and infrastructure consulting since joining Accenture in 1997. He has extensive experience outlining strategies for and delivering large-scale digital transformation programs.

He started his career in Accenture's commercial communications and high-tech business sector where he modernized telecom systems and cellular service and has worked across telecom, products and government clients. He is a graduate of the University of Notre Dame with a bachelor's degree in engineering.
