

Justin Parke, Accenture Federal Services (AFS) Managing Director and
Digital GI Bill (DGIB) Program Manager

As a member of Accenture Federal Services' Leadership and Program Manager for Accenture Federal's DGIB contract at the Department of Veterans Affairs, Mr. Parke leads the implementation and operations of Accenture Federal's DGIB systems. Partnering with the VA, he focuses on delivering better outcomes for Veterans and their families with innovative solutions that improve beneficiary experience and access to benefits earned.

Prior to this role, Mr. Parke was responsible for successful delivery of the VA Colmery implementation as well as complex delivery engagements for a wide variety of commercial, defense, and federal clients. As an Accenture Federal Services employee, he has worked across technology strategy, cloud implementations, analytics, artificial intelligence, mainframe modernization, systems integration, custom development, enterprise resource planning, and infrastructure consulting. Mr. Parke joined Accenture in 2007 as an experienced hire with hands-on system code development through program management expertise. He has extensive and deep experience outlining strategies for and delivering large-scale transformation programs.

He is a graduate of The George Washington University with a Bachelor of Science in Economics.
