

## **Mike Sicilia**

### **Executive Vice President, Industries**

Mike Sicilia is Executive Vice President of Oracle's global business units. In his current role he has overseen Oracle's healthcare work through the COVID-19 pandemic and the acquisition of Cerner. In his previous role he was the senior vice president and general manager of Oracle Construction and Engineering, the business unit that focuses on enterprise project and portfolio management solutions for asset-intensive industries.

Sicilia joined Oracle as part of its 2008 acquisition of Primavera Systems and was named senior vice president and general manager of that business unit in 2011. After Oracle's 2016 acquisition of Textura, a leading provider of construction contracts and payment management cloud services, the Oracle Primavera global business unit was renamed Oracle Construction and Engineering.

Prior to joining Oracle, Sicilia worked at Primavera Systems, joining the development department in 1993, where he worked as a programmer on the company's flagship products. He was named Primavera's chief technology officer in 2006. As CTO, he set the technology direction for products and managed the global development team. Sicilia led the technical and product presentations and due diligence team that worked through the Oracle acquisition. He graduated from Saint Joseph's University (Pennsylvania) with a BS in computer science.
