

Austin Robinson
Director of Manufacturing, Click Bond, Inc.

Biography

Austin Robinson joined Click Bond in 2024 as Director of Manufacturing. He reports to the Vice President of Operations and is responsible for virtually all aspects of factory production and workforce. Click Bond is privately held and designs and manufactures structural and assembly hardware for the aerospace and defense industries.

Robinson has over 30 years of hands-on and manufacturing leadership experience in: Aerospace, Automotive, Oil & Gas, HVAC Industrial and Commercial, and Fabrication. He has led independent and organized workforces with innovation and clear communication. Additionally, he has overseen organizations in multiple locations, numbering over 900 employees, and in excess of \$450 million in annual revenue. Austin pursues continuous education and is Lean/Six Sigma certified.

Some of Robinson's past titles and affiliations include: Assistant Plant Manager at Continental Structural Plastics (2019-2021); General Manager at EXEON Processors (2019); Assistant Plant Manager at Dana Corp. (2017-2019); Director of Operations at TriMas Corp. (2014-2016); Plant Manager at Air Distribution Technologies, Inc. (2012-2014).

Robinson earned his B.S. in Business from Indiana Wesleyan University. He has numerous certifications in lean manufacturing, change management, and CNC operations.
