

## **Fabian S. Garza**

Vice President of Operations, Black Diamond Equipment

### **Biography**

Fabian S. Garza serves as the Vice President of Operations with a distinguished tenure of 2 years in the role. He possesses a proven track record in architecting and executing growth strategies across multiple brands within a global context. This expertise extends to supporting expansion across diverse geographies, channels, segments, and product categories. Notably, his acumen has manifested in amplified profitability, waste elimination, superior supply chain construction, and the enhancement of asset efficiencies on an international platform.

Prior to his current role, Fabian held the critical position of Director of Global Supply Chain, further underscoring his comprehensive understanding of strategic planning, supply chain management, systems, process improvement, and analysis.

A Bachelor's degree holder in Industrial Engineering, Fabian combines his professional prowess with personal passions. Outside of his demanding professional life, he dedicates time to coaching youth baseball and basketball teams and is also committed to regular gym training.
