

## **Evangelos Razis (E-van-gel-os Rot-zees)**

Senior Manager of Public Policy, Workday

### **Biography**

Evangelos Razis is Senior Manager of Public Policy at Workday, an enterprise cloud software provider, where he leads AI, privacy, and data policy in the United States. Since joining the company, Evangelos has grown Workday's engagement on laws and frameworks at the federal and state level, helping it become a leading proponent for workable safeguards that build trust in digital technologies. He regularly advises privacy, responsible AI, and product legal teams on emerging legal and policy developments.

Before joining Workday, Evangelos led digital trade and global data policy at the U.S. Chamber of Commerce. While at the Chamber, Evangelos spearheaded the U.S. business community's engagement on the U.S.-EU Privacy Shield and advocated for open data governance frameworks in key U.S. export markets on six continents. Previously, Evangelos worked as a trade and technology policy analyst at Fujitsu and as a fellow at the Information Technology Industry Council. Evangelos has a B.A. in Political Science from Fordham University and an M.S. in Foreign Service from Georgetown University. He is a Certified Information Privacy Professional (CIPP/E) and a fellow at the Internet Law & Policy Foundry.
