RULES COMMITTEE PRINT 114-16

TEXT OF H.R. 1335, STRENGTHENING FISHING COMMUNITIES AND INCREASING FLEXIBILITY IN FISHERIES MANAGEMENT ACT

[Showing the text of the bill as ordered reported by the Committee on Natural Resources.]

1 SECTION 1. SHORT TITLE.

This Act may be cited as the “Strengthening Fishing Communities and Increasing Flexibility in Fisheries Management Act”.

2 SEC. 2. DEFINITIONS.

In this Act, any term used that is defined in section 3 of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1802) shall have the same meaning such term has under that section.

3 SEC. 3. REFERENCES.

Except as otherwise specifically provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a provision, the reference shall be considered to be made to a provision of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.).
SEC. 4. FLEXIBILITY IN REBUILDING FISH STOCKS.

(a) GENERAL REQUIREMENTS.—Section 304(e) (16 U.S.C. 1854(e)) is amended—

(1) in paragraph (4)—

(A) in subparagraph (A)(i), by striking “possible” and inserting “practicable”;

(B) by amending subparagraph (A)(ii) to read as follows:

“(ii) may not exceed the time the stock would be rebuilt without fishing occurring plus one mean generation, except in a case in which—

“(I) the biology of the stock of fish, other environmental conditions, or management measures under an international agreement in which the United States participates dictate otherwise;

“(II) the Secretary determines that the cause of the stock being depleted is outside the jurisdiction of the Council or the rebuilding program cannot be effective only by limiting fishing activities;

“(III) the Secretary determines that one or more components of a
mixed-stock fishery is depleted but
cannot be rebuilt within that time-
frame without significant economic
harm to the fishery, or cannot be re-
built without causing another compo-

ent of the mixed-stock fishery to ap-

proach a depleted status;

“(IV) the Secretary determines
that recruitment, distribution, or life
history of, or fishing activities for, the
stock are affected by informal trans-
boundary agreements under which
management activities outside the ex-
clusive economic zone by another
country may hinder conservation and
management efforts by United States
fishermen; and

“(V) the Secretary determines
that the stock has been affected by
unusual events that make rebuilding
within the specified time period im-
probable without significant economic
harm to fishing communities;”;

(C) by striking “and” after the semicolon
at the end of subparagraph (B), by redesig-
nating subparagraphs (B) and (C) as subparagraphs (C) and (D), and by inserting after subparagraph (A) the following:

“(B) take into account environmental condition including predator/prey relationships;”; and

(D) by striking the period at the end of subparagraph (D) (as so redesignated) and inserting “; and”, and by adding at the end the following:

“(E) specify a schedule for reviewing the rebuilding targets, evaluating environmental impacts on rebuilding progress, and evaluating progress being made toward reaching rebuilding targets.”; and

(2) by adding at the end the following:

“(8) A fishery management plan, plan amendment, or proposed regulations may use alternative rebuilding strategies, including harvest control rules and fishing mortality-rate targets to the extent they are in compliance with the requirements of this Act.

“(9) A Council may terminate the application of paragraph (3) to a fishery if the Council’s scientific and statistical committee determines and the Sec-
retary concurs that the original determination that
the fishery was depleted was erroneous, either—

“(A) within the 2-year period beginning on
the effective date a fishery management plan,
plan amendment, or proposed regulation for a
fishery under this subsection takes effect; or

“(B) within 90 days after the completion
of the next stock assessment after such deter-
mination.”.

(b) Emergency Regulations and Interim Meas-
ures.—Section 305(c)(3)(B) (16 U.S.C. 1855(c)(3)(B))
is amended by striking “180 days after” and all that fol-
lows through “provided” and inserting “1 year after the
date of publication, and may be extended by publication
in the Federal Register for one additional period of not
more than 1 year, if”.

at the end the following:

“(m) Considerations for Modifications to An-
nual Catch Limit Requirements.—

“(1) Consideration of ecosystem and eco-

nomic impacts.—In establishing annual catch lim-
its a Council may, consistent with section 302(h)(6),
consider changes in an ecosystem and the economic
needs of the fishing communities.

“(2) LIMITATIONS TO ANNUAL CATCH LIMIT
REQUIREMENT FOR SPECIAL FISHERIES.—Notwith-
standing subsection (h)(6), a Council is not required
to develop an annual catch limit for—

“(A) an ecosystem component species;

“(B) a fishery for a species that has a life
cycle of approximately 1 year, unless the Sec-
retary has determined the fishery is subject to
overfishing; or

“(C) a stock for which—

“(i) more than half of a single-year
class will complete their life cycle in less
than 18 months; and

“(ii) fishing mortality will have little
impact on the stock.

“(3) RELATIONSHIP TO INTERNATIONAL FISHERY EFFORTS.—Each annual catch limit may, con-
sistent with section 302(h)(6), take into account—

“(A) management measures under inter-
national agreements in which the United States
participates;

“(B) informal transboundary agreements
under which fishery management activities by
another country outside the exclusive economic
zone may hinder conservation efforts by United
States fishermen for a fish species for which
any of the recruitment, distribution, life history,
or fishing activities are transboundary; and

“(C) in instances in which no transboundary agreement exists, activities by another
country outside the exclusive economic zone
that may hinder conservation efforts by United
States fisherman for a fish species for which
any of the recruitment, distribution, life history,
or fishing activities are transboundary.

“(4) AUTHORIZATION FOR MULTISPECIES COM-
PLEXES AND MULTIYEAR ANNUAL CATCH LIMITS.—
For purposes of subsection (h)(6), a Council may es-

“A” an annual catch limit for a stock
complex; or

“(B) annual catch limits for each year in
any continuous period that is not more than
three years in duration.

“(5) ECOSYSTEM COMPONENT SPECIES DE-
FINED.—In this subsection the term ‘ecosystem com-
ponent species’ means a stock of fish that is a non-
target, incidentally harvested stock of fish in a fish-
ery, or a nontarget, incidentally harvested stock of fish that a Council or the Secretary has determined—

“(A) is not subject to overfishing, approaching a depleted condition or depleted; and

“(B) is not likely to become subject to overfishing or depleted in the absence of conservation and management measures.”.

(b) SUBSTITUTION OF TERM.—The Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.) is amended—

(1) in the heading of section 304(e), by striking “OVERFISHED” and inserting “DEPLETED”; and

(2) by striking “overfished” each place it appears and inserting “depleted”.

“(D) CATCH SHARE REFERENDUM PILOT PROGRAM.—

“(i) The New England, Mid-Atlantic, South Atlantic, and Gulf of Mexico Councils may not submit a fishery management
plan or amendment that creates a catch share program for a fishery, and the Secretary may not approve or implement such a plan or amendment submitted by such a Council or a secretarial plan or amendment under section 304(c) that creates such a program, unless the final program has been approved, in a referendum in accordance with this subparagraph, by a majority of the permit holders eligible to participate in the fishery. For multispecies permits in the Gulf of Mexico, any permit holder with landings from within the sector of the fishery being considered for the catch share program within the 5-year period preceding the date of the referendum and still active in fishing in the fishery shall be eligible to participate in such a referendum. If a catch share program is not approved by the requisite number of permit holders, it may be revised and submitted for approval in a subsequent referendum.

ess.

“(iv) For the purposes of this sub-
paragraph, the term ‘permit holder eligible to participate’ only includes the holder of a permit for a fishery under which fishing
has occurred in 3 of the 5 years preceding
a referendum for the fishery, unless sickness, injury, or other unavoidable hardship prevented the permit holder from engaging
in such fishing.

“(v) The Secretary may not implement any catch share program for any fishery managed exclusively by the Secretary unless first petitioned by a majority of those permit holders eligible to participate in the fishery.”.

(2) LIMITATION ON APPLICATION.—The amendment made by paragraph (1) shall not apply to a catch share program that is submitted to, or proposed by, the Secretary of Commerce before the date of enactment of this Act.
