6 beach erosion control and shoreline protection, hydro-
7 electric power, recreation, water supply, environmental
8 protection, restoration, and enhancement, and fish and
9 wildlife mitigation benefit all Americans, and because
10 water resources development projects are critical to main-
11 taining the country's economic prosperity, national secu-
12 rity, and environmental protection, Congress should con-
13 sider a water resources development bill not less often
14 than once every Congress.

15 **SEC. 102. ASSESSMENT OF HARBORS AND INLAND HAR-** 16 **BORS.**

17 Section 210(e) of the Water Resources Development

13 in the annual Report to Congress on Future Water
14 Resources Development to determine authorization
15 needs and priorities for purposes of water resources
16 development legislation.

17 (5) To ensure that Congress can gain a thor-
18 ough understanding of the water resources develop-
19 ment needs and priorities of the United States, it is
20 important that the Secretary take sufficient steps to
21 ensure that non-Federal interests are made aware of
22 the new annual report process, including the need
23 for non-Federal interests to submit proposals during
