Suspend the Rules and Pass the Bill, H.R. 5509, with an Amendment

(The amendment strikes all after the enacting clause and inserts a new text)

115TH CONGRESS
2D Session

H. R. 5509

To direct the National Science Foundation to provide grants for research about STEM education approaches and the STEM-related workforce, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

APRIL 13, 2018

Mr. McCarthy (for himself and Mr. Smith of Texas) introduced the following bill; which was referred to the Committee on Science, Space, and Technology

A BILL

To direct the National Science Foundation to provide grants for research about STEM education approaches and the STEM-related workforce, and for other purposes.

1 Be it enacted by the Senate and House of Representa-
2 tives of the United States of America in Congress assembled,

3 SECTION 1. SHORT TITLE.

4 This Act may be cited as the “Innovations in Men-
5 toring, Training, and Apprenticeships Act”.

5
SEC. 2. FINDINGS.

Congress finds the following:

(1) To remain competitive in the global economy, foster greater innovation, and provide a foundation for shared prosperity, the United States needs a workforce with the right mix of skills to meet the diverse needs of the economy.

(2) Evidence indicates that the returns on investments in technical skills in the labor market are strong when students successfully complete their education and gain credentials sought by employers.

(3) The responsibility for developing and sustaining a skilled technical workforce is fragmented across many groups, including educators, students, workers, employers, Federal, State, and local governments, civic associations, and other stakeholders. Such groups need to be able to coordinate and cooperate successfully with each other.

(4) Coordination among students, community colleges, secondary and post-secondary institutions, and employers would improve educational outcomes.

(5) Promising experiments currently underway may guide innovation and reform, but scalability of some of those experiments has not yet been tested.

(6) Evidence suggests that integration of academic education, technical skills development, and
hands-on work experience improves outcomes and return on investment for students in secondary and post-secondary education and for skilled technical workers in different career stages.

(7) Outcomes show that mentoring can increase STEM student engagement and the rate of completion of STEM post-secondary degrees.

SEC. 3. NATIONAL SCIENCE FOUNDATION STEM INNOVATION AND APPRENTICESHIP GRANTS.
(a) Establishment.—The Director of the National Science Foundation shall award competitive grants to eligible entities in accordance with this section.
(b) Coordination.—In carrying out this section, the Director shall consult and cooperate with the programs and policies of other relevant Federal agencies to avoid duplication with, and enhance the effectiveness of, the provision of grants under this section.
(c) Grants for Associate Degree Programs in STEM Fields.—
(1) In General.—The Director of the National Science Foundation shall award competitive grants to community colleges to develop or improve associate or certificate programs in STEM fields in, with respect to the region in which the respective college is located, an in-demand industry sector or occupa-
tion (as defined in section 3(23)) of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102(23))).

(2) APPLICATION.—In considering applications for grants under paragraph (1), the Director shall prioritize—

(A) applicants that consist of a partnership between the applying community college and individual employers or an employer consortia, or industry or sector partnerships, and may include a university or other organization with demonstrated expertise in academic program development;

(B) applications that demonstrate current and future workforce demand in occupations directly related to the proposed associate degree or certificate program;

(C) applications that include commitments by the partnering employers or employer consortia, or industry or sector partnerships, to offer apprenticeships, internships or other applied learning opportunities to students enrolled in the proposed associate degree program;

(D) applications that include outreach plans and goals for recruiting and enrolling
women and other historically underrepresented individuals in STEM studies and careers in the proposed associate degree program; and

(E) applications that describe how the applying community college will support the collection of information and data for purposes of evaluation of the proposed associate degree program.

(3) FUNDING.—The National Science Foundation shall devote not less than $20,000,000 to awards described in this subsection, which shall include not less than $5,000,000 for each of fiscal years 2018 through 2021, subject to the availability of appropriations, to come from amounts made available for the Education and Human Resources Directorate. This subsection shall be carried out using funds otherwise appropriated by law after the date of enactment of this Act.

(d) GRANTS FOR STEM DEGREE APPLIED LEARNING OPPORTUNITIES.—

(1) IN GENERAL.—The Director of the National Science Foundation shall award competitive grants to institutions of higher education partnering with employers or employer consortia, or industry or sector partnerships, that commit to offering apprentice-
ships, internships, research opportunities, or applied
learning experiences to enrolled university students
in identified STEM baccalaureate degree programs.

(2) APPLICATION.—In considering applications
for grants under paragraph (1), the Director shall
prioritize—

(A) applicants that consist of a partnership
between—

(I) the applying university; and

(ii) individual employers or an em-
ployer consortia, or industry or sector part-
nerships;

(B) applications that demonstrate current
and future workforce demand in occupations di-
rectly related to selected STEM fields;

(C) applications that include outreach
plans and goals for recruiting and enrolling
women and other populations historically under-
represented in STEM; and

(D) applications that describe how the uni-
versity will support the collection and informa-
tion of data for purposes of the evaluation of
identified STEM degree programs.

(3) FUNDING.—The National Science Founda-
tion shall devote not less than $10,000,000 to
awards described in this subsection, which shall include not less than $2,500,000 for each of fiscal years 2018 through 2021, subject to the availability of appropriations, to come from amounts made available for the Education and Human Resources Directorate. This subsection shall be carried out using funds otherwise appropriated by law after the date of enactment of this Act.

(e) Grants for Computer-Based and Online STEM Education Courses.—

(1) In general.—The Director of the National Science Foundation shall award competitive grants to institutions of higher education or nonprofit organizations to conduct research on student outcomes and determine best practices for STEM education and technical skills education through distance learning or in a simulated work environment.

(2) Research areas.—The research areas eligible for funding under this subsection may include—

(A) post-secondary courses for technical skills development for STEM occupations;

(B) improving high-school level career and technical education in STEM subjects;
(C) encouraging and sustaining interest and achievement levels in STEM subjects among women and other populations historically underrepresented in STEM studies and careers; and

(D) combining computer-based and online STEM education and skills development with traditional mentoring and other mentoring arrangements, apprenticeships, internships, and other applied learning opportunities.

(3) FUNDING.—The National Science Foundation shall devote not less than $10,000,000 to awards described in this subsection, which shall include not less than $2,500,000 for each of fiscal years 2018 through 2021, subject to the availability of appropriations, to come from amounts made available for the Education and Human Resources Directorate. This subsection shall be carried out using funds otherwise appropriated by law after the date of enactment of this Act.

SEC. 4. RESEARCH ON EFFICIENCY OF SKILLED TECHNICAL LABOR MARKETS.

(a) EFFICIENCY OF SKILLED TECHNICAL LABOR MARKETS.—The Directorate of Social, Behavioral & Economic Sciences of the National Science Foundation, in co-

ordination with the Secretary of Labor, shall support re-
search on labor market analysis innovations, data and in-
formation sciences, electronic information tools and meth-
odologies, and metrics.

(b) **COMPARISON OF UNITED STATES WORK-
FORCE.—**

(1) **RESEARCH.**—The National Science Founda-
tion shall commission research that compares and
contrasts skilled technical workforce development be-
tween States and regions within the United States
and other developed countries, including the diver-
sity of skilled technical and professional workforces,
to the extent feasible.

(2) **REPORT.**—Not later than 3 years after the
date of enactment of this Act, the Director of the
National Science Foundation shall submit to Con-
gress a report on the results of the study under
paragraph (1).

(c) **SKILLED TECHNICAL WORKFORCE.—**

(1) **REVIEW.**—The National Center for Science
and Engineering Statistics of the National Science
Foundation shall consult and coordinate with other
relevant Federal statistical agencies, including the
Institution of Education Science, and the Committee
on Science, Technology, Engineering, and Mathe-
matics Education, to explore the feasibility of ex-

panding its surveys to include the collection of objec-
tive data on the skilled technical workforce.

(2) REPORT.—Not later than 1 year after the
date of enactment of this Act, the Director of the
National Science Foundation shall submit to Con-
gress a report containing the progress made in ex-
panding the National Center for Science and Engi-
neering Statistics surveys to include the skilled tech-
nical workforce. Such report shall include a plan for
multi-agency collaboration in order to effect data
collection and reporting of data on the skilled tech-
nical workforce.

SEC. 5. SPENDING LIMITATION.

No additional funds are authorized to be appro-
priated to carry out this Act and the amendments made
by this Act, and this Act and such amendments shall be
carried out using amounts otherwise available for such
purpose.

SEC. 6. EVALUATION AND REPORT.

(a) Evaluation.—

(1) In general.—Not later than 2 years after
the date of enactment of this Act, the Director of
the National Science Foundation shall evaluate the
grants and programs provided under this Act.
(2) REQUIREMENTS.—In conducting the evaluation under paragraph (1), the Director shall—

(A) use a common set of benchmarks and assessment tools to identify best practices and materials developed or demonstrated by the research conducted pursuant to such grants and programs;

(B) include an assessment of the effectiveness of the grant programs established under this Act in expanding apprenticeships, internships, and other applied learning opportunities offered by employers in conjunction with community colleges and institutions of higher education;

(C) assess the number of students who participated in programs established under or pursuant to this Act;

(D) assess the percentage of students participating in programs established under or pursuant to this Act who successfully complete their education program; and

(E) assess the median earnings of students who have completed a program with respect to which a grant was awarded under section 3(c),
as of the date that is two calendar quarters after completing the program, as practicable.

(b) REPORT ON EVALUATIONS.—Not later than 180 days after the completion of the evaluation under subsection (a), the Director of the National Science Foundation shall submit to Congress and make widely available to the public a report that includes—

(1) the results of the evaluation; and

(2) any recommendations for legislative action that could optimize the effectiveness of the grants and programs under this Act.

(c) CONSULTATION.—In carrying out this section, the Director of the Foundation shall consult the programs and policies of other relevant Federal agencies to avoid duplication with, and enhance the effectiveness of, the grants and programs under this Act.

(d) SUBMISSION TO SECRETARY OF EDUCATION.—On the date on which the report is submitted under subsection (b), the Director of the National Science Foundation shall also submit to the Secretary of Education a copy of the report.

SEC. 7. DEFINITIONS.

In this Act:
(1) STEM.—The term “STEM” means science, technology, engineering, and mathematics, including computer science.

(2) COMMUNITY COLLEGE.—The term “community college” has the meaning given the term “junior and community college” in section 312 of the Higher Education Act of 1965 (20 U.S.C. 1058).

(3) REGION.—The term “region” means a labor market area, as such term is defined in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102).

(4) SKILLED TECHNICAL WORKFORCE.—The term “skilled technical workforce” means workers with high school diplomas and two-year technical training or certifications who employ significant levels of STEM knowledge in their jobs.
