

**Suspend the Rules and Agree to the Resolution, H. Res. 517 with  
Amendments**

**(The amendments consist of a new preamble and a complete new  
text)**

116TH CONGRESS  
1ST SESSION

# H. RES. 517

Supporting the Global Fund to fight AIDS, tuberculosis (TB), malaria, and  
its Sixth Replenishment.

---

## IN THE HOUSE OF REPRESENTATIVES

JULY 24, 2019

Mr. ENGEL (for himself and Mr. McCAUL) submitted the following resolution;  
which was referred to the Committee on Foreign Affairs

---

# RESOLUTION

Supporting the Global Fund to fight AIDS, tuberculosis  
(TB), malaria, and its Sixth Replenishment.

Whereas the Global Fund to fight AIDS, tuberculosis (TB),  
and malaria is an effective partnership of governments,  
the private sector, civil society, and affected communities  
to transform the response to these epidemics;

Whereas since the Global Fund's creation in 2002, and in  
close cooperation with the President's Emergency Plan  
for AIDS Relief (PEPFAR), more than 32,000,000 lives  
have been saved in countries where the Global Fund in-  
vests;

Whereas the Global Fund has contributed to extraordinary improvements in global health, including by helping to reduce by half the number of AIDS-related deaths since 2005, contributing to a 37-percent decline in TB deaths from 2000 to 2016, and a 60-percent decline in the number of malaria deaths since 2000;

Whereas the Global Fund and its partners work to uphold a steadfast commitment to transparency and accountability, receiving high marks in multilateral aid reviews and by independent watchdogs;

Whereas despite progress achieved to date in combating AIDS, TB, and malaria, significant challenges threaten future progress, including drug and insecticide resistance, reaching marginalized and vulnerable populations, and complacency in the fight against infectious diseases;

Whereas United States leadership has been critical to the Global Fund's success as its largest donor and through its oversight role on the Board of the Global Fund;

Whereas the Global Fund amplifies and supports the results of United States bilateral health programs, including the PEPFAR, the President's Malaria Initiative, and the United States Agency for International Development TB program;

Whereas a statutory cap on United States contributions to the Global Fund has successfully leveraged increased contributions from other donors in prior Global Fund replenishments;

Whereas the United Kingdom and Japan, for example, already have pledged significant increases to the Global Fund for the Sixth Replenishment;

Whereas the Global Fund's requirements for cofinancing have spurred domestic investments, with recipient countries committing 41 percent more of their own funding to fight AIDS, TB, and malaria for 2018 to 2020 compared to 2015 to 2017;

Whereas recipient countries are expected to increase their cofinancing by 48 percent, growing to \$46,000,000,000 from 2021 to 2023; and

Whereas with these resources secured, the Global Fund projects it will reduce the number of deaths due to AIDS, TB, and malaria by nearly 50 percent, avert 234,000,000 infections or disease cases, and save an additional 16,000,000 lives: Now, therefore, be it

1       *Resolved*, That the House of Representatives—

2               (1) encourages the Global Fund and its part-  
3       ners to continue their valuable contributions to end  
4       the epidemics of AIDS, TB, and malaria;

5               (2) affirms previous commitments of the United  
6       States to providing 33 percent of the budget to the  
7       Global Fund, including for the Sixth Global Fund  
8       Replenishment held on October 10, 2019, in Lyon,  
9       France, as demonstrated by the \$1,560,000,000 pro-  
10      vided by H.R. 2839 in the 116th Congress (pro-  
11      viding FY2020 appropriations for the Department  
12      of State, foreign operations, and related programs),  
13      as passed by the House of Representatives;

14              (3) urges donor countries to step up the fight  
15      and increase their pledges for the Sixth Global Fund

1 Replenishment and supports continued diplomatic  
2 engagement to improve burden sharing;

3 (4) urges Global Fund recipient countries to  
4 continue to make and meet ambitious cofinancing  
5 commitments to sustain progress in ending the  
6 epidemics of AIDS, TB, and malaria; and

7 (5) encourages United States bilateral aid pro-  
8 grams to continue their collaboration with the Global  
9 Fund to maximize the life-saving impact of global  
10 health investments.
