13 based on a determination under paragraph (1), the
14 Secretary determines that a study or project is not
15 in the Federal interest because the project will not
16 result, or is unlikely to result, in a recommended
17 plan that will produce national economic develop-
18 ment benefits greater than cost, but may result in
19 a technically sound and environmentally acceptable
20 plan that is otherwise consistent with section 904 of
21 the Water Resources Development Act of 1986 (33
22 U.S.C. 2281), the Secretary shall issue a report to

3 produce benefits greater than cost, the
4 Secretary shall allow the affected commu-
5 nity to pay, or provide contributions equal
6 to, an amount sufficient to make the re-
7 maining costs of design and construction
8 of the project equal to the estimated value

22 subparagraph (A), a report displaying
23 the calculations for economic and en-
24 vironmental benefits and efficiencies
25 from the beneficial use of dredged ma-

1 terial (including, where appropriate,
2 the utilization of alternative dredging
3 equipment and dredging disposal
4 methods) considered by the Secretary
5 under such subparagraph for the
6 placement or disposal of such mate-
7 rial.

8 (C) SELECTION OF DREDGED MATERIAL

22 national security and maritime transportation inter-
23 ests of the United States;

24 (2) there is a compelling national, regional,
25 Alaska Native, and private sector need for perma-

1 nent maritime transportation infrastructure develop-
2 ment and for a presence in the Arctic by the United
3 States to assert national security interests and to
4 support and facilitate search and rescue, shipping

11 transportation capabilities and has made significant
12 investments in military infrastructure in the Arctic,
13 including the construction or refurbishment of 16
14 deepwater ports in the region;

15 (4) is a serious concern that the closest United
16 States strategic seaports to the Arctic are the Port

18 proximately 1,500 nautical miles and 2,400 nautical
19 miles away from the Arctic, respectively, and ap-
20 proximately 1,900 nautical miles and 2,800 nautical

22 (5) it is in the national interest to enhance ex-
23 isting, and develop, maritime transportation infra-
24 structure in the Arctic, including an Arctic deep
25 draft strategic seaport in Alaska, that would allow

1 the Coast Guard and the Navy each to perform their
2 respective statutory duties and functions on a per-
3 manent basis with minimal mission interruption.
