

**Dr. Alecia Naugle**

Associate Deputy Administrator, Veterinary Services  
Animal and Plant Health Inspection Service  
U.S. Department of Agriculture

Dr. Alecia Larew Naugle is the Associate Deputy Administrator for the APHIS Veterinary Services program. She has held a number of positions since joining USDA in 2003 including roles in the Food Safety and Inspection Service, an extended detail in the Office of the Chief Scientist as the Senior Advisor for Animal Health, Production, and Animal Products, and several leadership roles in APHIS' Veterinary Services program and she has worked in or led most domestic animal disease programs in Veterinary Services.

Dr. Naugle received her undergraduate degree in Animal and Veterinary Sciences from West Virginia University, followed by a DVM and PhD in Veterinary Preventive Medicine from the Ohio State University. Her graduate research focused on Johne's disease in Ohio dairies. Alecia is a native of West Virginia where she enjoyed her childhood on her family's beef farm and was active in 4-H and FFA. She lives in Burtonsville, MD, with her husband, Tim, and sons, Quinn (12 years) and Cole (8 years).
