

William C Wilson

I have been a Metlakatla Indian Community Tribal council member since I was elected in 1999 at the age of 25. I am currently the longest consecutive seated councilmember to date. During my tenure as a councilman I have chaired all Six of the working committees that our council 12 member council breaks out into. This has allowed me to become involved in and learn the nuisances of just about every aspect of the community and its operations. From land use and development to financial planning and daily operations of the municipality.

I Have an AS degree in computer science from the Southwestern Indian Polytechnic Institute in Albuquerque NM. I have also been working for MIC for 19 years in the Human Resources Department of which I am currently the director. My unique position within the community and also as sitting councilman allow me to have a more complete understanding of how the community operates and moves forward into the future.
