Travis Bartnick is a wildlife biologist with the Great Lakes Indian Fish & Wildlife Commission. He received his Bachelor of Science degree in biology and wildlife ecology from the University of Wisconsin - Stevens Point and a Master of Science degree in wildlife ecology from the University of Wisconsin - Madison. Bartnick's research includes large carnivore predation habits, the use of new technology to improve wildlife population estimates, forest resource management, and assessing climate change impacts on treaty resources. His work with GLIFWC focuses on deer and elk management issues and invasive species management.
