Amendment to the Committee Report to Accompany HR 2810

At the appropriate place in the committee report, add the following:

Briefing on Female Propensity to Serve in the Armed Forces

Offered by Ms. Tsongas (D-MA)

The committee recognizes that a broad talent pool is critical to attaining qualified recruits with the requisite skill sets in demand by the armed services. An analysis of Joint Advertising Market Research and Studies data conducted for the Defense Advisory Committee on Women in the Services estimated that only 29% of youth ages 17 to 24 meet eligibility criteria for military service. Over half of that population is comprised of women; however, women account for less than 15% of today’s active duty force. Increasing the propensity of women to serve is an important step to achieving meaningful access to that eligible population and vital to meeting long-term readiness requirements. Therefore, the committee directs the Secretary of Defense to brief the House Armed Services Committee by January 31st, 2018 on the following:

- Female propensity to serve in each of the Armed Services, including historical trends in propensity from 9/11 through the opening of remaining combat arms MOSs and units to women;

- A review of proactive measures the services have taken to increase the propensity of women to serve;

- An assessment of programs, policies, or incentives that could help increase the propensity of women to serve including an evaluation of how successful previous efforts been in this regard;

- Service efforts to recruit women applicants, including measures of success weighted against the varying propensity of men and women to serve, funding directed towards gender diversity initiatives, and statistics related to female-targeted advertising and outreach to female athletes and high school students as a percentage of overall recruiting efforts in these areas; and
- An assessment of the impact of service culture on the propensity of women to serve, including departmental and service efforts to build environments of respect and inclusion and counter negative impressions of military service stemming from recent social media scandals.

Amendment to H.R. 281
National Defense Authorization Act for Fiscal Year 2018

Offered by: Mr. Abraham of Louisiana

In the appropriate place in the report to accompany H.R. 2810, insert the following new Directive Report Language:

Improving Access to Para Health Professional Extenders

The committee notes the Department of Defense continues to seek ways to improve health care delivery and facilitate access to health care services for military beneficiaries and lower the total cost of care. The committee is aware that certain para health professionals may be used as physician and health professional extenders within the Military Health System if they meet and comply with specific professional qualification and licensing criteria. However, the Committee is concerned that the Department does not have a common standard for hiring or reimbursing para health professionals. The Committee is also concerned with the delineated process that reviews the feasibility of using certain para health professionals or adding them to the list of individual professional providers of medical care who are authorized to provide services to TRICARE beneficiaries on an annual basis. Therefore, the committee directs the Secretary of Defense to submit a report not later than 1 April 2018 to the House Committees on Armed Services, outlining the process used by the Department to include para health professionals as healthcare providers within the Military Health System. The review shall also determine how to incorporate physical therapist assistants, occupational therapy assistants and mental health counselors, and other para health professionals determined by the Secretary into the Military Health System to improve beneficiary access to health care services, while ensuring quality and outcome standards are maintained, supervision by appropriate health professionals, and reasonable reimbursement for services provided.
