The committee is aware of a recent report that concluded that racial disparities may exist in the military justice system. Personnel Policies regarding Members of the Armed Forces Infected with Human Immunodeficiency Virus (HIV)

On September 22, 2014, the Department of Defense (DOD) submitted a report to Congress in response to section 572 of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113-66) on personnel policies regarding members of the Armed Forces infected with human immunodeficiency virus (HIV) and hepatitis B (HBV). The Committee notes that while the report received did outline the current DOD policies, it failed to include how current policies reflect the evidence base and medical advances in the fields of HIV. The report also fell short in describing the criteria for which these policies are implemented throughout different branches and among commanding officers. Therefore, not later March 1, 2018, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on Department of Defense personnel policies regarding members of the Armed Forces infected with human immunodeficiency virus (HIV). The report shall include the following:

1. A description of policies addressing the enlistment or commissioning of individuals with these conditions and retention policies, deployment policies, discharge policies, and disciplinary policies regarding individuals with these conditions.

2. An update on the status of the Department of Army’s HIV policy, which was under review during the issuance of the 2014 report.

3. An assessment of these policies, with reference to medical experts and literature, which includes how the policies reflect an evidence-based, medically accurate understanding of how this condition is contracted; how this condition can be transmitted to other individuals; the risk of transmission; and treatment regimens available.

4. The feasibility of allowing and individual who is currently serving as an enlisted member of the Armed Forces become a commissioned officer of the Armed Forces and what restrictions are different for an officer.

Therefore, the Secretary of Defense will provide a briefing to the Committee on Armed Services of the House of Representatives, no later than March 1, 2018, on the number of financial planners the Department has available to service members and how service members are informed or advised concerning professional financial planning and the availability of professional financial planners.
