Revised Amendment to H.R. 2500
National Defense Authorization Act for Fiscal Year 2020

Offered by: Rep. Escobar of Texas

In the appropriate place in the report to accompany H.R. 2500, insert the following new Directive Report Language:

Expansion of the GSA pilot Authorized under FY18 NDAA Section 846

The committee notes the value of the online procurement models being piloted by the GSA’s Online Marketplace, and appreciates the benefits of the Defense Department’s ability to utilize e-commerce acquisitions processes for certain commercial items.

However, numerous constituents have brought to light significant concerns with respect to data protections under the current pilot system. The committee notes that participating small businesses are particularly vulnerable to harms resulting from the revelation of pricing or other sensitive business information if a sufficient data protection regime is not in place. The committee is concerned that entities with both online marketplace portal administrator access and seller access may reap an unfair advantage over entities who are only sellers.

Therefore the committee directs the Administrator of the General Services Administration to conduct a pilot on all three models to include the e-commerce model, the e-marketplace model, and the e-procurement model. The Administrator of the General Services Administration is directed to provide the appropriate congressional committees a report on the plan and schedule of the pilot programs by December 15, 2019.
