2 2193b and inserting the following new item:

"2193b. Improvement of education in technical fields: program for support of
elementary and secondary education in science, technology, en-
gineering, art and design, and mathematics.".
The committee is concerned that the Department of Defense’s default contribution rate of 3% to the Thrift Savings Plan (TSP) will have long term negative impacts on service members’—specifically junior enlisted service members”—financial readiness and wellbeing. Civilian studies show that the average default automatic enrollment for civilian employer matching has increased in recent years to 4.6%, and that a contribution of at least 4% is required to achieve the same undiscounted lifetime income under the BRS as under the current system.

The committee directs the Secretary of Defense to submit a report to the Committee on Armed Services of the House of Representatives not later than March 1, 2020, on the potential effects of automatically enrolling new service members into the Thrift Savings Plan (TSP) at the maximum government matching rate of 5% of the service member’s base pay compared to the existing automatic enrollment of 3% of the servicemember’s base pay. The elements of the report shall include:

1. The analysis and rationale for the current 3% default enrollment contribution.
2. A comparison of the estimated undiscounted lifetime income of an enlisted service member under the Blended Retirement System with a 3% matching contribution, a 5% matching contribution and the legacy retirement system. The comparison shall include analysis of different amounts of time in service as well as differentials between the active and reserve component.
3. A comparison of the estimated undiscounted lifetime income of an officer under the Blended Retirement System with a 3% matching contribution, a 5% matching contribution and the legacy retirement system. The comparison shall include analysis of different amounts of time in service as well as differentials between the active and reserve component.
4. Analysis on enrollees who changed their contribution allocation from the default percentage and their rationale to do so.
5. The average TSP contribution percentage among servicemembers who elect to change from their default contribution once enrolled in the blended retirement system.
6. What programs or initiatives have been shown to be effective in increasing the percentage of servicemembers opting for the full 5% contribution?
7. Recommendations to enhance the future earnings and retirement savings of servicemembers.
Amendment to H.R. 2500
National Defense Authorization Act for Fiscal Year 2020

Offered by:
Ms. Stefanik of New York

In the portion of the report to accompany H.R. 2500 titled "Spouse Employment Programs," strike the following text: "unemployment" and insert the following new text "unemployment and underemployment."

To read:

Spouse Employment Programs

The committee is aware of the extensive network of resources that the Department of Defense has established to assist spouses of members of the Armed Forces in seeking employment. The committee understands the need to provide both online and in-person career counseling and employment information to ensure the unique needs of military spouses are met. However, the committee remains concerned that some of the resources available may not adequately target the professions most sought-after by spouses. Therefore, the committee directs the Comptroller General of the United States to provide a briefing to the Committee on Armed Services of the House of Representatives not later than April 1, 2020, with a report to follow at a later date, containing the following components:

(1) an analysis of whether military spouses with certain professional certifications or licenses have higher rates of unemployment and underemployment than other military spouses;

(2) an analysis of whether military spouses with certain professional certifications or licenses have higher rates of unemployment and underemployment when compared to their civilian counterparts;

(3) an analysis of whether military spouses married to service members of certain ranks have higher rates of unemployment and underemployment than other military spouses;

(4) an analysis of whether the Department of Defense has a system of measurement for evaluating the effectiveness of States' laws in easing licensing burdens on military spouses and whether occupational licensing requirements are considered when evaluating service member assignment decisions; and

(5) marketing efforts by the Department of Defense to ensure military spouses are aware of the available resources.
Amendment to H.R. 2500
National Defense Authorization Act for Fiscal Year 2020

Offered by: Mr. Byrne

In the appropriate place in the report to accompany H.R. 2500, insert the following new Directive Report Language:

TRICARE Specialty Drug Network Accessibility

The Committee is concerned that the Pharmacy Benefits Manager (PBM) acting on behalf of TRICARE under the Office of Defense Health Affairs is restricting access for additional accredited pharmacies to the TRICARE specialty drug network without consideration or evaluation. The Committee is concerned that these actions by the PBM limits the maximum pricing competition possible, as well as reduces the widest degree of beneficiary access to drug therapies within TRICARE’s specialty drug network.

The Committee directs the Secretary of Defense to submit a report to the defense authorization committees by February 1, 2020 that:

- evaluates TRICARE’s pharmacy benefits management responsibilities and requirements,
- outlines the clear process for consideration, evaluation, and admission of additional and new accredited pharmacies to the TRICARE specialty drug network; and
- provides a cost analysis for adding new entrants into the specialty drug network.
Amendment to H.R. 2500
National Defense Authorization Act for Fiscal Year 2020
Offered by Mr. Bacon of Nebraska

In the appropriate place in the report to accompany H.R. 2500, insert the following new Directive Report Language:

Implementation Plan to Address the Impacts of Obesity on the Defense Enterprise

The committee remains concerned that persistent high rates of excessive weight and body fat pose long-term risks for national security to the extent they prevent the Department of Defense from its mission to recruit, retain and sustain an effective joint force. The committee recognizes the efforts of the Department of Defense in acknowledging these mission readiness challenges and observes the findings of numerous studies on excessive weight and body fat in the military population. The committee notes that the Department of the Defense is the largest public healthcare provider in the United States and is aware of estimates that the Department spends more than $1 billion annually in treating obesity-related illnesses for servicemembers and dependents. The committee also observes that despite multiple studies acknowledging the costs and systemic readiness challenges of obesity-induced illnesses in the military community, actions taken to date have been fragmented, uncoordinated, and generally ineffective in reversing the detrimental impacts this condition has on readiness and rising health care costs. The committee believes the Department must urgently address the challenges that obesity poses to mission readiness and the military healthcare system’s capacity to provide care to servicemembers, dependents and retirees.

The committee therefore directs that the Undersecretary for Personnel and Readiness provide a briefing to the congressional defense committees by January 15, 2020 on the Department’s implementation plan to address weight and obesity impacts on military servicemembers and dependents in the active and reserve component. This plan will include a

1) a description of the Department’s goals, and how it will measure progress toward these goals;
2) how it will incorporate cross-functional strategies to align efforts across the services, commands, agencies, and the broader defense health enterprise;
3) how it will expand access to healthy food and fitness facilities in military communities;
4) how it will implement nutritional standards for food offered in military dining facilities, defense resale entities, and contract vendors; and

5) how it will use existing acquisition authorities to catalyze innovative partnerships to rapidly prototype scalable technology-enabled solutions that improve health and wellness for servicemembers and dependents across their daily lives.

Amendment to H.R. 2500
National Defense Authorization Act for Fiscal Year 2020

Offered by: Ms. Houlahan of Pennsylvania

In the appropriate place in the report to accompany H.R. 2500, insert the following new Directive Report Language:

Report on Feasibility of Loan or Grant Program to Offset the Cost of Child Care Center Accreditation in Areas with Long Waitlists to Access On-Base Child Development Centers

The committee notes that there is a shortage of available and affordable child care on military installations and that many military families utilize private child care options due to this shortage. Further, the committee notes that in order to use the child care stipend made available to servicemembers whose children have been on a wait list for on-base child care for an extended period of time, the private child care center must be accredited. Data suggests that approximately half of the United States has too few licensed child care options. The committee directs the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and the House of Representatives not later than June 1, 2020 regarding the feasibility of the creation of a grant or loan program to defray the initial cost of meeting state licensure requirements for child care facilities in areas where there is a shortage of licensed child care options for military families. The report shall include:

1. An assessment of areas with the longest waitlists for on-base Child Development Centers;
2. An assessment of the availability of licensed, off-base child care facilities in those areas;
3. The feasibility of creating a grant or loan program to defray up to half the cost of meeting state licensure requirements;
4. Recommendations for legislative or administrative action as the Secretary considers appropriate in light of the report, including recommendations for a pilot grant or loan program.
